DETAILED ACTION

1. The holding of Abandonment due to the failure of the Office to timely process received Applicant's response is withdrawn.
2. By the Amendment responsive to the Office action claims 6-7, 14-16, 21-22, 33-34 and 40-41 have been cancelled, claims 1-5, 8-13, 17-20, 23-32 and 35-39 amended, and new claims 42-43 have been added. This amendment has been entered.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 1-5, 8-13, 17-20, 23-32, 35-39 and 42-43 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Independent claims 1, 13, 28 and 35 recite limitation "displaying simultaneously a plurality of alternate symbols from the first list in a pop-up menu at an insertion location for at least one of the alternate symbols on the display of the hand-held device". This limitation does not have support in the specification as originally filed. The specification fails to disclose that the pop-up menu of the list of alternative symbols is displayed at the insertion location. Even though in FIGS. 6A-C of the disclosure the pop-up menus are seemingly located in the vicinity of the insertion location (there was no definition provided of what the insertion location is; examiner assumes that it would be a location, where next character

will be written to), the specification is silent about this feature, which implies that it was not essential to the practice of the invention at the time when the invention was made, any other location within the display of the hand-held device apparently will do.

Response to Arguments

5. Applicant's arguments with respect to claims 1-5, 8-13, 17-20, 23-32, 35-39 and 42-43 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
